

The Federal Communications Commission

Dear The Federal Communications Commission,

Please do not take the security of my cell-phone from me.
We are retired and living on a strict budget. Our phone is used
only for emergency purposes and for no other reason.

The last time it was used was when we had a flat tire at 11:30
PM on the expressway and were able to call AAA to fix the tire.
Without the phone available we could have suffered severe
consequences.

Please do not make that lifeline unafordable for us by applying
this additional tax.

G & R Hotchkiss

Sincerely,

Gordon Hotchkiss
